

IBM SystemStorage®

leading edge storage technology, end-to-end storage solutions

IBM SystemStorage® from Jeskell provides an integrated family of disk, tape, and storage networking solutions to help address the four critical elements of today's information infrastructure: retention, availability, compliance, and security. They seamlessly integrate with existing multivendor enterprise and open systems IT environments.

IBM SystemStorage solutions from Jeskell help meet the challenge of today's information explosion with cost-effective, energy-efficient products and strategies that help transform data into a trusted strategic asset. They also efficiently manage and protect that data throughout its lifecycle.

- Virtualize and consolidate storage infrastructures to simplify management, reduce energy use, and increase utilization of existing assets
- Choose from an always growing family of optimized solutions for Linux®, UNIX®, Windows®, and z/OS® environments
- Quickly move selected data to the most cost-appropriate and energy efficient storage
- Slow infrastructure growth by eliminating inadvertent storing of redundant information
- Improve storage utilization up to 20% and simplify administration with a complete suite of IBM Tivoli® software tools and programs

- Establish chronological and event-based data retention based on business policy
- Simplify and enhance auditing and reporting processes
- Minimize business risk with tactical end-to-end security
- Get applications and users up and running within minutes after a data loss
- Ensure safe storage with top level backup, business continuity, and disaster recovery solutions
- Control both IBM and non-IBM storage from a consolidated management console
- Support 24x7 environments

Jeskell: Storage experience you can count on

Jeskell can provide end-to-end storage solutions for any size organization. We've been doing it for going on 20 years.

- One-stop source for complete solutions — certified for all IBM storage systems, server platforms, software, and services
- Multi-vendor, open systems, and high-end enterprise environments
- Disk, tape, VTS/VE, SAN/NAS
- Top-tier IBM business partner — highly competitive pricing
- Total solutions — from assessment and planning through deployment and post-sale support
- Nationwide network of IBM certified storage specialists
- IBM certified Tivoli storage management experts
- Detailed planning to help leverage existing storage assets
- Automation of data management
- Data migration from existing IBM and competitor systems
- Complete consolidation services
- Disaster planning and recovery
- \$1.5M in-house Storage Solution Center — hardware/software/services for product evaluation, POC's, application testing, and training

Services you can trust

As a top-tier IBM Premier Business partner, Jeskell offers a full complement of Professional and Technical Services to help you plan, architect, and deploy, your SystemStorage solution. Support begins well before you place an order. We meet with your team to discuss strategies and objectives, review product and solution options, and provide any needed explanations of the technologies involved before moving forward.

Track record of success

Established in 1991, Jeskell has experienced continuous growth by helping commercial enterprises, government agencies, and educational institutions nationwide successfully deploy the right technology solution for their specific IT infrastructure and business needs.

Headquartered in Silicon Valley, Jeskell has offices across the US and is regularly in the top five percent of all IBM business partners. At Jeskell, we measure our success by yours. Contact us today.
